Data Sets

There are now many different Governmental Organisation data sets available.
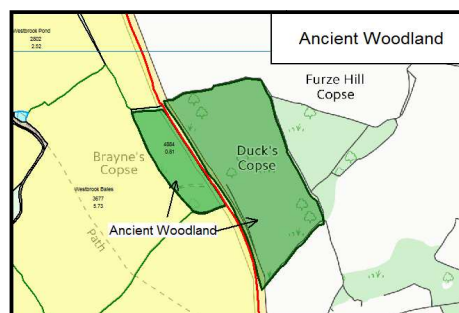

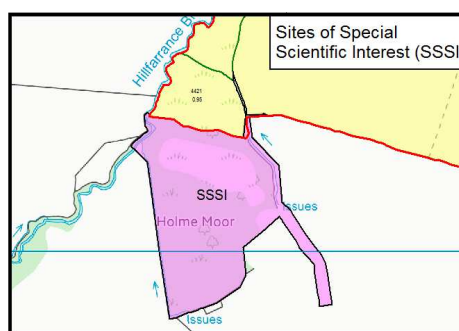

These land classifications are now available in digital map format and are being used in PT-Mapper as overlays to farm and estate maps. Having information such as SSSIs or Ancient Woodland in PT-Mapper allows you to verify your land management practices against this important information, easily and simply in one place, helping you with your management decisions.

Data Sets Available

- Ancient Woodland
- Areas of Outstanding Natural Beauty
- Biosphere Reserves
- Forestry Commission Grants
- Forestry Commission Inventory
- Greenbelt
- Listed Buildings
- Local Nature Reserves
- National Forest Estate Woodland
- National Grid
- National Nature Reserves
- Nitrate Vulnerable Zones
- Special Areas of Conservation
- Special Protection Areas
